It was a challenge for setting up a tribal girls school in Malkangiri that to in a very remote village called S. Tandapalli in the year 1998. We started with 5 students initially with a very small and thatched house but we could able to built trust on the tribal community and gradually the strength of the school increased and now we have 169 children are studying from Class-1 to Class-6. We have concentrated our entire effort and putting energy to built the carrier of the children therefore 80% of our focus is on school only. Last 24 years, we are there with 14 dedicated staffs and thanks to Ministry of Tribal affairs, Government of India for providing Grant-in-Aid on year to year basis. We are very grateful to District Administration of Malkangiri, Government of Odisha, MAP, France and Hand in Hand, Germany for their matching support to make the good quality Student Dormitory, Class rooms, school furniture and Campus boundary of the school.

About the Organisation:

The name "SEED" stands for Social Education for Environment and Development organisation which came into existence in the year 1991 when a group of development practitioners and social activists witnessing the plights of commons in Malkangiri joined to a platform for taking uniform approach towards development. SEED is a secular & non-political organization that stands for the poor & marginalised scheduled caste, scheduled tribe and other backward class people of the society. SEED is managed by experienced

development professionals having years of work exposure in tribal locations. Besides retaining experienced professionals the organisation has engaged young & energetic community workers who possess first-hand knowledge as well as countless ideas of problems and opportunity in the tribal set up. The organization focuses on themes of education, livelihood, environment protection, women empowerment, health and capacity building of the tribal in general and vulnerable groups in particular.

The organisation is registered under the following legal provisions.

- Registered under Indian Societies Registration Act XXI of 1960.
- Foreign Contribution Regulation Act (FCRA) in 2005 bearing FC registration no 105090006.
- Income Tax act 12A and 80G

Our Vision

- To empower the Malkangiri people to build a healthy, ecologically sustainable, socially active society.
- To prepare the Malkangiri people to lead a quality life with access to, and control over their own resources.

Our Mission:

- To work for the empowerment of tribal women and children.
- To provide primary education to tribal girls.
- To organise rural poor for their own development
- Reduce poverty and dependency syndrome
- Work for the basic health care of community
- Lowering of death rates and enhancing quality of life
- Rehabilitation of disable people.

Approaches:

SEED believes that communities possess an inherent power that enables them to improve the capacities of the people in the area. Communities can do this by creating an environment in which the community can gain access to as well as control over the common resources. SEED treats each and every tribal set as a microcosmic unit, distinguished by distinct lifestyles and cultures. The different features of each tribal set makes it necessary to develop a context specific approach for development. SEED employs a holistic approach when addressing tribal problems. Instead of providing a quick fix solution to the problem SEED tries to find out a long term sustainable solution to the problems. This cannot be done without participation by the people of the community and so SEED tries to build up organizations to stand on their own without any dependency on external groups. SEED is an external catalyst to the development of these communities.

Operational area:

SEED operates in Malkangiri district of Odisha. This district was earlier a part of Koraput district and because of reorganization was segregated as a separate district in the year 1992. Most of the part of the district is covered with dense inaccessible forests, small but beautiful rivers, undulating plateaus and splendorous rich tribal culture. Because of inaccessibility and bordering two extremism prone states i.e Chhatisgarh & Andhra Pradesh the people often encounter naxal's murder . Located in a large distance from the state capital as well as predominated with primitive tribal communities of Bonda, Koya, Paraja and Bengali refugees' development has been over crippled here. With high prevalence of poverty, malnutrition, migration and land alienation has forced tribes to lead a life with lesser means. The encroachment and penetration of people who are not a part and parcel of the tribal ecosystem are virtually straining the social fabric. The tribal culture has either lost or given to other alienated cultures in silence. Though the region is resource rich, yet most of the raw materials are used in the primary sector minimizing the return. Due to large scale deforestation and exfoliation, the landscapes are eroded .The natural resources are abundant. The jungles and vast stretches of agricultural land are still used in the most primitive ways. In this operational area SEED tries to intervene into the following key issues, bringing solutions to the social issues. Presence of middlemen in every cycle of production be in agriculture or industrial, has even more marginalized the profit. Thus due to low profit and less agricultural productivity has forced the people to migrate.

With this scenario SEED started working in Malkangiri district in the year 1991. The organization conceptualized that Empowerment can only take place when women, weaker sex are enlightened through education as education only can emancipate them from despondency. Accordingly SEED put its step through the residential education programme of tribal girls. The current education system which is non- tribal in context, culture as well as symbols keeps tribal girls shy away from education. It was a big hurdle to bring the girls as parent's perception of education was unworthy for them. Parents rather prefer their daughters to be engaged as baby sitters at home while they go away for wage earning. With continued counseling to parents, SEED mobilized the girls to the centre and continues to deliver context specific and culture suitable primary education to the girl children. SEED believes that only education to women can bring solutions to many a number of problems. The education must be provided at No Cost to the tribal girls along with nutritious food and stationeries.

Educational Complex for Tribal girls:

SEED is being supported by the Government of India in implementing an educational complex for tribal girls. The complex, named SEED Kanyashram, has a special focus on female literacy. It incorporates a targeted scheme to strengthen education among scheduled tribe girls, and specific components that improve girls' education. SEED Kanyashram has been established and managed by

SEED at Tandapalli village of Korukonda block, Malkangiri district, Odisha since February 1998. Currently, 169 tribal girls are being provided with primary education up to class 6.
